Notes:						
The department determined some projects are ineligible for SDWLP funds based on the Notice of Intent to Apply form or Priority Evaluation & Ranking Form received by 12/31/04.						
Those ineligible projects are not included on the Project Priority List.						
¹ This project will likely close a loan for about \$16 million of the total project cost with SFY 2005 funds, so about \$9 million would need SFY 2006 funding. ² This project can be only partially funded in SFY 2006. Statutes state that no local governmental unit may receive more than 25% of the biennial present value subsidy. ³ A loan for these projects will likely close before 04/30/2005 using SFY 2005 funds. We will remove them from the SFY 06 Priority List if the loan closes.						
*DNR is unable to determine priority scores for 2 projects at this time. We will notify the local governmental units when we complete the scoring process for their projects.
